

## COMPATIBILITY STATEMENT – AquaMedix Filters vs. Competitor Filters

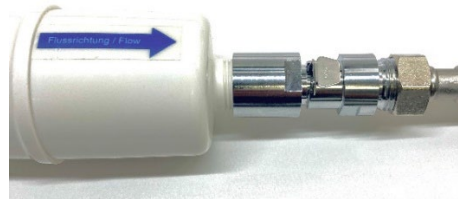

AquaMedix stands ready to respond to *Legionella* or other waterborne pathogen outbreaks for emergency situations. AquaMedix will work to ensure your filtration needs are met no matter the circumstance. In the event that your facility has a legionella outbreak, large inventory and overnight shipping will ensure:

- No delays in filter installation
- Protection of patients and residents
- Uninterrupted regular water usage
- Safeguards are in place to control outbreak

### Compatible with existing hardware

Inline filters are equipped with standard screw-on and push connect fittings compatible with many existing filtration systems. Additionally, AquaMedix has a range of connectors, adapters, and fittings on hand to ensure timely and proper installation. If you are unable to fulfill filtration needs with current providers, AquaMedix filters are ready to go and can be easily retrofit with existing push connect fittings.

**EXAMPLE:** AquaMedix inline filter connected to series 40 adapter with push connect:

### Easy to install

Converting to AquaMedix filtration systems will ultimately save money on installations. Quick-Connect Kits are affordable and simplify installation making for a straightforward, intuitive, and hassle-free experience. Kits are available for:

- Inline filters
- Faucet filters
- Wall shower and shower handle systems

**For Use In:** hospitals, clinics, and other medical facilities such as skilled nursing and adult care facilities. Recommended for areas at high-risk for hospital-acquired infections (HAIs) such as ICU, neonatal, oncology, burn, and transplant units.

### About AquaMedix

AquaMedix develops, manufactures, and distributes point-of-use (POU) and inline filtration systems designed to protect against waterborne bacteria. Proprietary filters trap potentially lethal pathogenic bacteria such as *Legionella*, *Pseudomonas*, *Acinetobacter*, *Nontuberculous Mycobacterium*, and *Stenotrophomonas*. In addition to selling a complete line of CleanSpray POU and inline filtration systems, AquaMedix is the U.S. Master Distributor for Baclyser POU and inline filters by Aqua free.

Our products include shower and faucet filters as well as standard and specialty inline filters to protect water used in ice machines, coffee machines, dental office sprayers, and other appliances. AquaMedix products are easy to install and maintain without large capital expenses or the need for costly chemicals, machinery, or special training. With filters installed nationwide in healthcare facilities, AquaMedix is positioned to address infection control concerns with a variety of innovative and cost-effective products.
